## EDUCATION

### Maulana Azad National Institute of Technology

B-Tech Computer Science and Engineering

2022-Present

CGPA: 8.79

### RVN School

Board of Higher Education, Rajasthan

2020-2021

Percentage: 96

### NCA School

Board of Secondary Education, Rajasthan

2019-2020

Percentage: 94

## EXPERIENCE

### Piramal Finance

Jan 2026-Present

SDE Intern

Bangalore

- Led migration of microservices to a centralized configuration system using **Spring Cloud Config and Kafka**, enabling **zero-downtime** dynamic configuration updates and improving deployment efficiency.
- Identified and resolved **critical production risks** including hardcoded secrets and cross-environment misconfigurations, while migrating AWS Param Store-based configs to a **centralized Git-backed repository** with S3 versioning, ensuring reliability, security, and a single source of truth.
- Collaborated with cross-functional and DevOps teams to resolve migration blockers, debug issues, and clarify architecture requirements.
- Reduced **false-positive alerts** by analyzing Grafana metrics, API-level alerting logic, and Kafka-based pipelines, improving monitoring accuracy and incident response.

### CerebrumX

May 2025-June 2025

SDE Intern

Gurugram

- Reduced daily token access costs by 52% and also improved latency by replacing **AWS Cognito** with a **Redis-based** caching architecture for authentication requests.
- Maintained 99.9% uptime while processing 10,000 daily authentication requests by optimizing caching strategies
- Enabled automated token management for more than 1,000 active users by developing scalable and secure **RESTful** APIs for client company and third-party integration handling.

## PROJECTS

### Code Mesh | [Github](#) | [Live](#)

- Built a **MERN-stack** collaborative code editor enabling real-time editing for up to 10 concurrent users , instant project export, and syntax highlighting for 10+ programming languages.
- Implemented **WebSocket**-powered group chat, user presence tracking, and integrated a **GPT-based AI assistant** for natural language to code generation.
- Developed a secure, sandboxed code execution environment supporting multiple languages, with instant run capability and customizable themes/fonts.
- Added a shared drawing board using **Tldraw** so users can sketch ideas and brainstorm visually in real time.
- **Techstack**: React, TypeScript, Tailwind CSS, CodeMirror 6, Socket.IO, Tldraw, Node.js, Piston API, Pollinations AI

### FinanceGPT | [Github](#) | [Live](#)

- Built a Conversational AI Finance Assistant using **Retrieval-Augmented Generation (RAG)** to provide accurate, context-aware responses from a 1000+ page knowledge base.
- Implemented Hybrid Search (semantic + keyword) with Domain specific **HuggingFace FinLang** embeddings stored in **ChromaDB**, and integrated **LLaMA** for natural language generation, significantly improving retrieval precision and response quality.
- Designed a Frontend with **Streamlit UI**, achieving efficient query handling, achieving average latency under 2 second per query.
- **Techstack**: Python, Streamlit, LangChain, LangGraph HuggingFace, ChromaDB, Google OAuth, NumPy, PymuPDF

## TECHNICAL SKILLS AND INTERESTS

**Languages**: C/C++, Typescript, JavaScript, Java, Python

**Libraries, Frameworks**: React, Recoil, Tailwind CSS, Express, Nodejs, Socket.io, Spring boot, Langchain, Langgraph

**Development Tools**: Git, GitHub, Jenkins, Rancher, Postman, VS Code, Chrome DevTools, HuggingFace

**Coursework**: Data Structure and Algorithm, DBMS, OOPS, Operating System

**Cloud/Databases**: MySQL, MongoDB

**Soft Skills**: Teamwork, Time Management, Responsibility, Adaptability, Hardworking

**Areas of Interest**: Cricket, Table Tennis

## ACHIEVEMENTS

**Code for Good** : Participated in code for good hackathon organised by JP Morgan Chase and CO.

2024

- Delivered an innovative platform for a real-world NGO problem through strong teamwork and time management.

**Coding Profiles** : [Leetcode](#), [GFG](#), [Codeforces](#)

- Solved 400+ DSA questions across various platforms.

## POSITIONS OF RESPONSIBILITY

**Core Team Member**, Programming Club of College

Mar 2024-Present

- Mentored juniors in data structures, algorithms.

**Chegg Expert**, Delivering Academic Support to Students at Chegg

Sep 2023-Present

- Helped students by solving tough coding problems and made sure the answers were correct and easy to understand.
